

## Shareholder Commitment

The cultivation of Christ-likeness requires both an acknowledgement of values as well as a practical demonstration of our commitment to those values. We choose daily to participate in God's redeeming work in our lives and the advancement of His Kingdom.

### My Commitment as a Shareholder of Vineyard Cincinnati

I commit to being a Shareholder of Vineyard Cincinnati. I recognize that while all regular attenders identify with the church as their home base for worship, to become a Shareholder brings about a higher level of responsibility in how I live my life. By becoming a Shareholder, I will support the vision and values of the church; the spiritual authority and decisions of church leadership; the statement of beliefs; and the bylaws, which outline the governance of this local church<sup>1</sup>. Through baptism, I affirm my decision to follow Christ wholeheartedly and to fully participate in the life of His church.

I also commit to pursuing my own spiritual growth by maintaining a healthy rhythm of weekly public worship, living in community with fellow Christ-followers, and the personal disciplines of prayer, communion and Bible study. I commit to contributing to the mission of the church financially through tithing and intentionally through service. I will diligently work to live at peace with people within the church by putting others first and upholding the principles of biblical conflict resolution. I will daily embrace my responsibility to be salt and light<sup>2</sup> to those outside the church.
